## STUD EARRING WITH A REMOVABLE DANGLE ELEMENT

### ABSTRACT OF THE DISCLOSURE

A jewelry design for adorning an ear which  
5 includes a conically-shaped stud mounting extending  
conically outward from a conical point to form a  
conical basket for securing a stone therein, a post  
with a near end attached to the conical point and a  
far end, and a nut engagable with the far end of the  
10 post for securing the stud mounting to the ear; a  
dangling element; and an intermediary connecting  
member which removably engages an exterior surface of  
the conical basket, and which includes a jump ring  
extending outward therefrom for flexibly supporting  
15 the dangling element so that it is removably  
suspendable below the stud mounting.
